PERSONAL PROFILE	Passionate about visual communication and digital game design, I am pursuing a double major in Visual Communication Design and Digital Game Design at Istanbul Bilgi University with a full scholarship. Currently on an Erasmus+ Exchange Year at Hogeschool van Amsterdam, I explore immersive and interactive media through the Immersive Environments course, aiming to expand my creative and technical skills in an international setting.	
CAREER GOALS	My goal is to create immersive and interactive digital worlds by combining visual communication, VFX design, and game development. I aspire to contribute to large-scale projects in the film and gaming industries, where storytelling, design, and advanced technology intersect to shape rich virtual environments. Through the Erasmus program, I aim to expand my creative vision, collaborate across cultures, and gain both technical and artistic experience to bring these digital experiences to life.
